### Troubleshooting

#### Q1: How to set indicator light as rapid flashing?

- Power on device. Power off after 10s and then power on.
- Hold the reset button for 5s.
- Confirm indicator light is now rapidlyflashing

#### Q2: How to set indicator light as slow flashing?

- Power on device. Power off after 10s and then power on.
- Hold the reset button for 5s
- Confirm indicator light is now rapidly flashing.
- Hold reset button for 5s until indicator light is slowly flashing.

The new added device needs 1min to connect to networks and the internet if it stays offline for a long time please judge the problem by the networks LED status. Tetworks LED quickly blinks one time
